

**Susan Mityorn**  
**Certified Pet Tech Instructor (PTI #1962)**  
[SMITYORN@GMAIL.COM](mailto:SMITYORN@GMAIL.COM)

The Spinone Club of America Health Committee is so very pleased and honored to welcome Susan to our 2018 National Specialty!

Susan Mityorn is honored to present PetTech's Pet First Aid & CPR Class to the Spinone Club of America. Susan has worked as a professional pet care provider since 2011. Having daily interactions with all kinds of pets, she has come across a number of situations that required emergency care. Thanks to Pet Tech classes, she learned many skills that helped her remain calm and gave her the know-how to navigate emergency situations in order to give pets the best opportunity for a good outcome. Susan thought anyone who ever touches fur should have these skills as well! Having volunteered as an EMT, she saw the similarities between emergency care for humans and with pets, and appreciated how Pet Tech boiled down medical protocols to make them easy to understand for pet owners. Since becoming an Instructor for Pet Tech, Susan has taught hundreds of pet care professionals and pet owners some valuable skills when it comes to emergency situations with our beloved furry family members. Although it is a serious matter, Susan loves to teach and tries to lighten the mood when discussing heavy material. She has 2 dogs and 6 cats.
